## 1. Situation

- a. Area of Interest.

**University of Kansas – Army ROTC**

**Area of Interest:** Fort Leavenworth, KS is the oldest continuously operating military installation west of the Mississippi River. Fort Leavenworth is home to The US Army Combined Arms Center (CAC). Fort Leavenworth is home to all "Field Grade Officers" and runs the US Army Command and General Staff College. Fort Leavenworth is home to about 2,892 active-duty Soldiers, 1,130 students, and 5,175 APF and NAF Civilians.

- b. Area of Operations (AO).

3RD BDE Operation Order 25-xx Ranger Buddy Challenge (RBC)

University of Kansas – Army ROTC

**Area of Operations: Mission Training Complex.** Located at the southeast corner of Fort Leavenworth, the facility offers 45,000 feet of configurable indoor training space, a DFAC, and on-site barracks that can house up to 560 Soldiers.

**Sherman Army Airfield/ Chief Joseph Loop.** The primary area of ops. is bounded to the South by the Missouri River, to the West by Fort Leavenworth railway, to the North by the 61 Easting, and to the East by the 37 Northing. The Chief Joseph Loop is a dirt and gravel road capable of holding single way traffic that encircles all of Sherman Army Airfield. The largest identifiable feature is the Sherman Army Airfield.

(1) Terrain.

- (a) Avenues of Approach: The primary avenue of approach is McClellan Ave. McClellan Avenue is an asphalt road that facilitates two-way traffic. McClellan Ave. runs parallel to the Ranger Buddy Training site. Chief Joseph Loop encircles the training area. Chief Joseph Loop is a hard packed gravel road. It will facilitate one-way traffic but will be closed off during the competition.
- (b) Obstacles: Parallel to Chief Joseph Loop and to the west of the training site is a railway. The rail crossing is the only entry to the Ranger Buddy Competition area. This crossing does not have a functioning gate and is trafficked regularly by trains.

(2) Weather. RBC is an outdoor event. The weather in the Leavenworth area during the last week of March is historically mild with a chance of rain. The historic average high is 63°F with the average historic low of 41°F.

**2. Mission.** 3RD Brigade conducts Ranger Buddy Competition, under the direction of Task Force Leavenworth at Fort Leavenworth, KS from 281800MAR-291830MAR2025 to instill a culture of winning and excellence across Cadet Command while maximizing the event as an ROTC marketing opportunity.

**3. Execution.**

a. Commander's Intent. Safely conduct a rigorous competition to test Cadet critical thinking, physical endurance, mental toughness, and teamwork while marketing ROTC opportunities for future competitors.

(1) Key Tasks:

a. Complete tactical tasks aligned with CG policy letter 9 to build proficiency prior to CST 25.

b. Maximize participation of all Cadets by fielding teams across as many categories as possible.

**3RD BDE Operation Order 25-xx Ranger Buddy Challenge (RBC)**

c. Market opportunities outside of ROTC to grow this competition and other ROTC events.

d. Compete and win.

(2) End State: Cadets safely conduct RBC and recognized for their achievements. Positive experience for all competitors and competing schools.

b. Concept of Operations. This operation is conducted in three phases. Phase I- RSOI, Phase II- Execution, Phase III- Awards Ceremony and Dismissal. Decisive to this operation is execution of warrior tasks during PH II. This is decisive because it will carry the most weight for competing teams in the competition.

- (1) PH I- RSOI- Critical to this phase is the reception of all competitors at Fort Leavenworth, KS NLT **281800MAR25**. Prior to the reception of competitors all teams must register at Link. Competitors and coaches are invited to attend IPR's held by BDE.
- (2) PH II- Execution- Critical to this phase is the execution of tactical lane tasks. This phase begins with a written land navigation exam on **28MAR** and ends with the completion of tactical lanes on **29MAR**. During this phase competitors will complete 15 tactical tasks and a series of road marches that equal around 13.5-miles.
- (3) Ph III- Award/Recovery- This phase begins o/a **291800MAR25** after the completion of tactical tasks and road march events. Critical to this phase is the recognition and awarding of best Ranger Buddy teams.

b. Scheme of Movement and Maneuver

(1) Phase 1-RSOI: This phase begins with the receipt of this OPORD. Critical to this phase is the reception of all Cadets at Fort Leavenworth, KS. During this phase all Cadets will register, schools will attend in progress reviews (IPRs), TF Leavenworth will lead rehearsals, resourcing of events, and all in-processing is complete. This phase ends when teams receive the coaches brief.

(a) Registration: The registration window opens on **20JAN25**. During this phase JROTC and ROTC Battalions register their teams through the attached [website](#). Registration closes on **01MAR25**. Schools may register up to 10 teams for the competition, however schools within 3<sup>rd</sup> BDE are guaranteed that they will receive 4 competition teams for the event. Schools will provide rank order all the teams they register and we will prioritize team selection by this OML until we have 250 teams registered for the event. We will announce the selection of teams during the IPR #2.

**3RD BDE Operation Order 25-xx Ranger Buddy Challenge (RBC)**

(b) IPRs: TF Leavenworth hosts a series of IPRs to facilitate questions and logistics prior to the execution of Ranger Buddy. IPRs take place according to the timeline published inside this OPOD. Everyone is welcome to attend the IPRs. IPRs will be held on the Teams channel at **BDE created Ranger Buddy Competition Teams Channel**.

(c) Rehearsals: TF Leavenworth leads the execution of rehearsals leading up to Ranger Buddy Competition. KU executes Rehearsal of Concept drill on **131500MAR25**, event will be broadcast on MS Teams. Lane Rehearsal is conducted on **1600 28MAR24** with assigned Lane OICs present. Train the Trainer and station preparation is executed on **28MAR25** with TF Leavenworth Cadre.

(d) Resourcing: Occurs throughout this phase. All resourcing requests are processed through BDE S4. All resource requests must be submitted NLT **24FEB24**. 3RD BDE Teams are provided barracks at Fort Leavenworth, KS. Teams outside the 3RD BDE will resource lodging on the economy.

(e) In-Processing: The final list of teams is published to all schools on **15MAR24**. All requests for changes must be made and approved through KU operations officer, MAJ Nash, following this date. Teams arrive to Fort Leavenworth Mission Training Complex **NLT 28 1800 MAR 25**. Teams receive packets and room assignments upon arrival to the barracks.

Reception Staging and Onward Integration.

## In-Processing Timeline:

- NLT 051750APR24- Cadets check in through N. entrance of barracks at Mission Training Complex. (Yellow Box)
- NLT 051800APR Cadets arrive at Lecture 1 for coach's brief. (two Cadets per program max) (Blue) Dinner served in DFAC 1 to remaining competitors. (Green)
- 051900APR PMS and BDE CMD Team Social DFAC 2 (Purple)
- 052000APR Written Land Navigation Exam in Lecture 1 and 2 (Blue)

Location of MTC:

(f) Coaches Brief: **28 1800 MAR 25** Cadets will receive a coaches brief in Lecture 1 of the mission training complex. Only one representative from each school is required to be at this meeting. During the coaches brief, dinner will be served in DFAC 1.

(g) BDE Social: Cadre attending the event will have the opportunity to meet with COL Cruz. All 3<sup>rd</sup> BDE Cadre will attend the BDE Social at “tentatively” Willcott Brewing **28 2000-2100 MAR 25**.

(2) Phase 2- Execution: This phase begins following the coaches brief on **28MAR25** and ends when all teams have finished their final iteration of lanes or road march on **29MAR25**. Critical to this phase is the execution of tactical lane tasks. During this phase competitors will complete 15 tactical tasks and a 13.5-mile road march. Each competitor will be assigned a control group. Each control group will start at different areas of the course. Competitors will undergo three iterations of the lanes (red, white, and blue). At each lane, competitors complete 5 tactical tasks, and a 4.5 mile road march.

(a) Written Land Navigation: Following the coaches briefs competitors will have 1 hour to answer as many questions as possible on a written land navigation exam. This exam will replicate the ones given at Cadet Summer Training-Advanced Camp. This event will account for 10% of the overall ranking of the competition.

**3RD BDE Operation Order 25-xx Ranger Buddy Challenge (RBC)**

(b) Tactical Lanes: Decisive to competitors' operations is the successful execution of the 15 tactical tasks. This is decisive because it holds the most weight in the competition. 50% of Cadets scores are based on the correct completion of each tactical task. The tactical tasks are governed by EIB Pamphlet 350-6, 30AUG23. Reference Attachment. Knots are governed by TC 3-21.76 Ranger Handbook, while testing standards are from Army Mountain Warfare VT 05465-9796 (Time Standards).

(c) Road March: The road march event occurs at the same time as the tactical lane event. Cadets are assigned either to the lane or to complete the 4.5 mile loop for the road march course. In total, Cadets will travel this route 3 times.

**University of Kansas – Army ROTC**

## 13.5-Mile Road March

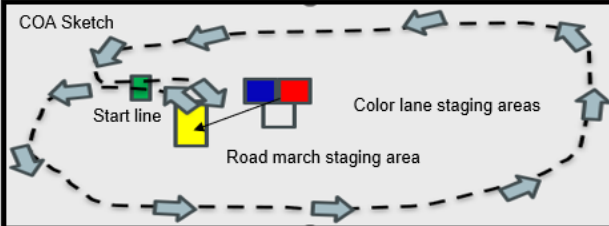

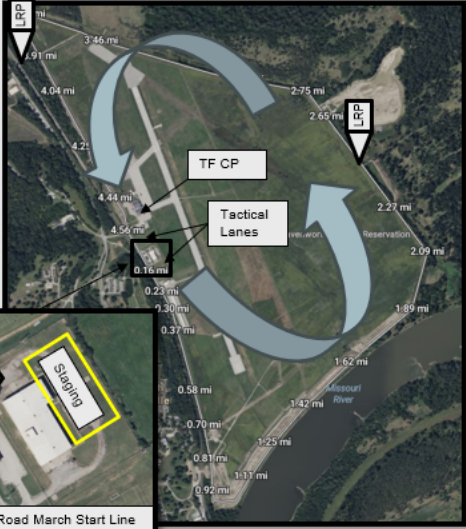

PH II- Execution (Road March) This phase occurs simultaneous to the color lane tasks. During this subphase competitors complete three (3) 4.5-mile-long road marches. Each road march will increase in difficulty as the event progresses.

**Event Analysis:**

- Weigh in occurs prior to each loop during Competition
- Competitors are divided onto three separate lanes (Red, White, Blue)
- Up to 30 teams are placed at each of the three lanes.
- 15 teams execute the color lane tasks
- 15 teams execute the tactical road march
- All competitors execute road march in a counterclockwise movement
- Times are taken by Red Dirt Racing
- All three times are consolidated and the best time wins
- Each iteration competitors are tasked with carrying an item
- Items increase in weigh each iteration
- At the 1.5-hour mark Cadets rotate either to lane tasks or the road march
- Cadets still on the course lose time to conduct color lane tasks
